

OBJECTIVES

- Review the definitions, etiology, and outcomes of neonatal short bowel syndrome and intestinal failure (SBS/IF)
- Discuss the impact of enteral nutrition on bowel adaptation
- Discuss strategies to optimize enteral and parenteral nutrition while mitigating nutrient deficiencies and/or excesses and decrease risk of parenteral nutrition associated liver disease (PNALD)
- Review strategies to minimize oral aversion and support optimal growth and development
- Review current medical and surgical treatment options for infants and children with SBS/IF

Short Bowel Syndrome and Intestinal Failure: Nutritional Implications in Neonatal and Pediatric Patients

OUR SPEAKER

Gina O'Toole

MPH, RD, CLEC, CSPCC

Gina O'Toole is a Neonatal Dietitian at CHOC Children's Hospital in Orange, CA. She has played an integral role in the development of the Surgical NICU at CHOC, participated in institutional research and has developed nutritional and feeding guidelines for infants with short bowel syndrome and for neonates undergoing surgery. Gina has participated in multiple quality improvement initiatives through the Vermont Oxford Network, the Children's Hospital Neonatal Consortium, and the California Perinatal Quality Care Collaborative. Additionally, she has authored the chapter "Short Bowel Syndrome and Intestinal Failure" in the 3rd edition of the Academy of Nutrition and Dietetics Pocket Guide to Neonatal Nutrition. Gina has spoken on the local and national platform regarding nutrition infants with short bowel syndrome and for neonates undergoing surgery.

Katherine Bennett

MPH, RD

Katherine Bennett has over 18 years of experience in the field of pediatric nutrition, ranging from working with premature infants in the neonatal intensive care unit to now working with children of all ages in the outpatient setting for the CHOC Gastroenterology and Nutrition Division. She completed her undergraduate degree in Nutrition/Dietetics from the University of Tucson in Arizona, her dietetic internship at the University of Virginia, and her master's degree in Public Health from UCLA. She excels in providing individualized nutrition care for a varied range of conditions from inflammatory bowel disease to specialized nutrition support for children with special needs. Katherine is the lead dietitian for CHOC Children's TPN Clinic where she helps care for children with intestinal failure requiring parenteral nutrition support.

12:30 PM - 12:35 PM	WELCOME AND INTRODUCTION
12:35 PM - 1:50 PM	Neonatal Short Bowel Syndrome Gina M. O'Toole, MPH, RD, CLEC, CSPCC
1:50 PM - 2:00 PM	BREAK
2:00 PM - 3:15 PM	Pediatric Short Bowel Syndrome Katherine Bennett, MPH, RD
3:15 PM - 3:30 PM	Q&A

In addition to completing an online evaluation, participants of our programs can provide feedback directly to CDR at www.cdrnet.org.
