

OBJECTIVES

- Describe best practices in nutrition that build healthy bones and control reflux symptoms in preterm infants.
- Review how evidence-based skin care practices can protect the newborn's microbiome.
- Describe the essential elements of a post discharge feeding plan in the term, late preterm and preterm infant.

NUTRITION AND SKIN CARE IN THE NICU PATIENT

OUR SPEAKERS

Sharon Groh-Wargo
PhD, RD

Sharon Groh-Wargo PhD, RDN is Professor, Nutrition and Pediatrics, at Case Western Reserve University School of Medicine in Cleveland, Ohio. Dr. Groh-Wargo has over 40 years of experience as a neonatal dietitian, is a nationally known speaker and researcher, and has authored numerous publications on neonatal nutrition. She is a contributor to all three editions

of the Academy of Nutrition and Dietetics' *Pocket Guide to Neonatal Nutrition* and authored a chapter on "Lactoengineering" for the 3rd edition of *Infant and Pediatric Feedings: Guidelines for Preparation of Human Milk and Formula in Health Care Facilities*. She participates in the *BEGIN Project - Breastmilk Ecology: Genesis of Infant Nutrition* - sponsored by the NIH in cooperation with the Academy of Nutrition and Dietetics, which was convened to investigate human milk as a unique biological system. Dr. Groh-Wargo received the Academy of Nutrition and Dietetics' Medallion Award in recognition of her professional contributions.

Terrie Lockridge
MSN, RNC-NIC, C-ELBW

Terrie is a neonatal clinical nurse specialist with many years of professional practice devoted to supporting newborns at risk. She has experience in many different aspects of neonatal critical care, including ECMO, post-operative cardiac care, neuroprotection, transport, delivery room resuscitation, and stabilization. Terrie is a member of the

National Association of Neonatal Nurses (NANN), the Academy of Neonatal Nurses (ANN) and past president of the Pacific NW Association of Neonatal Nurses (PNANN). She has been a STABLE Program and Neonatal Resuscitation Program (NRP) Instructor since the start of both curriculums. Terrie is an accomplished author, having contributed to peer reviewed journals and textbook chapters. She is a recipient of the DAISY Award for Extraordinary Nurses. Terrie currently works as a NICU nurse at a Seattle tertiary center with nearly 10,000 births yearly, and she brings a practical approach to her educational offerings that combines pragmatic clinical information with the latest in evidence-based practice.

8:30AM-8:40AM	WELCOME/INTRODUCTIONS
